AmScope B490 Series Professional Biological Binocular Compound Microscope 40X-2000X Magnification W

The B490 series is a top choice for veterinarians, breeders, clinics, and general biological applications, with proven reliability and optical quality. It boasts features such as a compensation-free Siedentopf head, smooth stage translation, and a precision focus system with easy tension and stage-limit adjustment. The 490 series offers a wide range of optional accessories to expand the functionality. The magnification range can be expanded with a large selection of objective and ocular lenses. ...
