OMAX M837L Series Oil Darkfield Trinocular Compound Microscope 40X-2500X Magnification with LED Illumination

The M837L series compound microscope is a class leader offering professional features at an affordable price. This darkfield version provides an additional observation method to enhance contrast when viewing certain low-contrast specimens including unstained live cells. Along with the microscope's standard condenser used for brightfield observation, a specialized darkfield condenser is included. Viewing Head The trinocular viewing head has a comfortable 45° incline for viewing while seated or standing.
